God's Majesty

Psalm 90:2

Before the mountains were born or you brought forth the earth and the world,
from everlasting to everlasting you are
GOD !

As you shelter in place, think today about God's awesome majesty. How incredible and powerful is our God. The human mind can almost fathom eternity forward. In other words, we as mere mortals, can comprehend that our souls will not perish – we will go on forever (Christ's bride to sup with Him for eternity / the unsaved separated from God in perpetuity). But have you ever stopped to think of eternity backwards ? God has always existed. He neither had a beginning, or will have an end. If you think too hard about it, it will give you a headache ☺

John 1:1

In the beginning was the Word, and Word was with God, and the Word was God.

John, of course, was referring to Jesus as the Word – the creative force behind all creation. The concept of the trinity (God/Jesus/Holy Spirit – 3 in one), is as difficult to grasp as eternity. This is of great comfort to me. Were I able to comprehend eternity or the trinity – there exists the possibility that these ideas were man-made. As it is, there is no chance that our God was whipped up by feeble man.

When you look up at the sky, vast mountain ranges, the sheer beauty of bulbs breaking forth in the Spring. . . .what a fantastic, marvelous, unimaginable Creator our Father God is, was, and always will be ! Also, to imagine that our Heavenly Father had a plan to redeem his creation before the foundations of the earth were laid. Pretty amazing if you ask me !

While I was in college I cut my hand – bad enough to have a series of stitches knitted into it. While the doctor was sewing me up, I had a chance

to share my faith with him. He said that he wasn't sure about the hereafter (in response to the patented – "If you were to die tonight, do you know where you would spend eternity?" question). But what he said next has always stuck with me: "Based on my study of the human body, there is no question that we were created by some higher power than mere man. The way white blood cells attack incoming bacteria; the way scar tissue heals itself; the way a newborn grows with awe and wonder it is all too marvelous to me, to think that we evolved from an amoeba – in my mind, that is simply impossible." Yes, Doctor, we were fearfully & wonderfully made.

Prayer – Loving Heavenly Father, I am humbled by your grandeur and majesty. Thank you for my life and for your creation all around me. Thank you for sending your Son to die and to be resurrected to save all those who put their belief in Him. I praise, worship & adore you today and every day I awake to your unending grace and mercy. Amen.
